

DECIDE PLAN FOR
HOG RECORD HOMESTANDARD POLAND-CHINA ASSO-
CIATION ASKS FOR BIDS.WORK TO BEGIN MAY 1,
BE READY BY AUGUSTJames H. Woodburn to Supervise Con-
struction of Building on East
Fifth—To Be Fireproof.

Plans and specifications for the proposed new one-story brick home of the Standard Poland-China Record association, to be built next to the postoffice, on East Fifth street, were received and formally adopted by the association building committee at a meeting in the offices of the Farmers Trust company yesterday afternoon. The committee consists of W. O. Garrett, chairman; Ray Davis, secretary; C. D. Bellows, W. C. Pierce and F. P. Robinson, all of Maryville.

Following the acceptance of the plans, which were drawn and submitted by James Schack, architect, of Seattle, Wash., a brother-in-law to C. D. Bellows, the committee issued a call for sealed bids for constructing the new home. The bids are to be submitted to Ray Davis, secretary, at the offices of the association, Third and Market streets, not later than April 20, when they will be opened and examined by the building committee.

To Be Ready by August 1.
If any of the submitted bids are approved, the contract will be then and there awarded, so that actual work on the building, or at least excavating for the basement, may begin not later than May 1. The time set for completing the building, ready for occupancy, is August 1. This will give three months time in which to construct the building.

Select Building Supervisor.
James H. Woodburn, a local carpenter, was yesterday appointed as superintendent of building and construction by the building committee. He will begin work as soon as the actual construction begins. It will be his purpose to see that all plans and specifications are carried out to the letter by the constructors and that first class material is used throughout.

It will be the purpose of the association committee to urge the use of home labor as much as possible, although this cannot be governed by it entirely.

The frame residence and barn now on the building site is to be removed within the next week or ten days. The tract on which the home is to be located was purchased last month from James Saunders for \$3,300. It has a frontage of 66-feet on East Fifth street and is 135 feet deep.

The building will be erected on rather artistic designs, making it a credit to Maryville and in keeping with the federal building, adjoining to the west. The brick to be used is to be a pressed reddish-gray variety from Coffeyville, Kan., with stone cornicing and also beneath windows and above doors.

Will Be Fireproof.
The roof will be of asbestos shingles, of a fireproof composition and resembling slate roofing, only they will be painted red. A cement walk will lead from the Fifth street sidewalk twenty-five feet back to the main doorway of the home.

The building is to set back twenty-five feet from Fifth street, four feet to the east of the government boundary line and sixteen feet west of the eastern boundary, and eighty feet from the alley to the north, so that an addition can be provided for at any time such improvement may warrant it.

By placing the building away from the front, rear and sides it will serve two purposes—to give plenty of light and to safeguard the home against danger of fire. To this latter end everything is arranged in the plans for making fire from without almost impossible, while safeguards in this way

also will be provided in the interior.

Interior Arrangements.
Passing through a large, artistically designed door, the visitor to the association home will enter the vestibule 9 by 12 feet in dimensions. From there he may either pass through the main working room and clerical department or to the private office of the secretary, which likewise will be the directors' room. The working room will be 23 by 30 feet in dimensions, while the directors' room will be 14 by 22 feet in dimensions.

One thing the visitor also will notice from the vestibule, if plans are carried out is a large counter and gate connecting, which will separate the entrance hall from the clerical department, and over which all business will be done.

To Be Well Equipped.
The rooms will be well equipped with all furnishings needed in the transaction of the association business, and likewise to give prestige to the association and the air of prosperity and plenty.

On the main floor, to the rear, there also will be a large vault 14 by 22 feet in dimensions and with a balcony entirely around it. The entire lower floor will be 14 feet from the ceiling. The vault is expected to cost in the neighborhood of \$1,400, and will be built large enough to accommodate the association for years to come. There also will be two toilets and a clothes closet.

The basement will be only large enough to contain the hot air furnace and storage rooms for fuel, kindling and waste. It will be well lighted, however, as are also the main rooms. As proof, the plans call for three large windows on the east side and also three large windows on the south side of the main working room.

PARENT-TEACHERS MEET.
Program Will Be Followed by a Get-Together Session.

The April meeting of the Parent-Teachers' association will be held tonight in the high school auditorium, beginning at 8 o'clock.

The feature of the program will be a talk by Miss Beulah Brunner of the Normal faculty. Prof. E. R. Utter, principal of the high school, will speak on the subject of "Clean-Up Day," and music will be given by the high school orchestra and by the pupils from the seventh and eighth grades.

A social hour, for the purpose of all becoming better acquainted, will be held after the program. This gathering will be in the main hall and music will be given during the hour by the orchestra.

CLEAN-UP BOSSES

FOUR WOMEN NAMED WARD SUPERVISORS BY MAYOR.

WILL HAVE ASSISTANTS

Each Captain May Appoint Lieutenant for Each Block—Meet Soon to Plan for Campaign, April 20.

One woman from each of the four wards of Maryville was appointed this morning by Mayor U. S. Wright, as ward captain in the city "clean-up, paint-up" campaign, to culminate April 20. They will have charge of the clean-up in their respective ward, and may appoint an assistant from each block in her district. The ward captains announced are:

First ward—Miss Dorothy Pierce.
Second ward—Mrs. W. C. Van Cleave.
Third ward—Miss Jessie Parcher.
Fourth ward—Mrs. William J. Montgomery.

The selection of all but Miss Pierce was really determined upon sometime ago by Mayor Wright, but on account of Miss Pierce being out of town until last night, it could not be known whether she would accept the position as ward captain.

Decide Campaign Plans Soon.

A joint meeting of the general clean-up committee and of the ward captains will be held at the Commercial Club rooms within a few days, perhaps, this week, to map out definite details for the clean-up. They also will decide on a plan of procedure in order to best insure a thorough cleaning of the city.

A general discussion relative to the clean-up, gardening of vacant lots and the school contest for clean-up prizes also will follow at the meeting. The general committee consists of Mayor U. S. Wright, John J. Gray, president of the city council, J. H. Sewell, Miss Jessie Parcher, Prof. E. R. Utter and W. R. Jackson.

Considerable interest among the school children of the city is being manifested over the clean-up contest and many boys and girls are entering the Junior "Clean-up, paint-up" club, it is announced.

BUT 1 VOTE AGAINST LIGHTS

Graham Electric Franchise Proposition Carries—To Be Installed by July 1.

A practically unanimous vote at Graham today carried the proposition to grant a franchise to the Mound City Electric Light company to install an electric light and power system in the town.

At noon, with virtually the entire vote of the town cast, only one dissenting vote was entered.

The contract, as previously made with the Mound City company, pending the granting of the town franchise at today's election, specifies that the service be installed and ready for use July 1. Arc lights are to be placed at each street intersection, sixteen being required, and a 24-hour service will be given. Nearly every resident owner in the town has contracted for a house service, and the wiring will be done as soon as the town system is completed.

CHANGE ASSESSMENTS MUCH

Equalization Board Raises Atchison Real Estate Valuation 15 Per Cent—Examine Union and Jefferson.

The county court, meeting as a board of equalization for the first three days of this week, for the annual consideration of real estate and personal property valuations, is making many changes this year. Only Atchison, Jefferson and Union townships have so far been examined, but each will be considered before the board dissolves. The real estate valuations reported for 1914 by the township assessor for Atchison township were raised 15 per cent by the board today, excepting for Clearmont, which was left the same. Even with this 15 per cent raise, it is said the valuations for 1915 taxes are not so high as they were a year ago. Changes reported for Atchison township are:

John V. Smith, 160 acres, from \$3,000 to \$2,500.
L. H. McCommon, personal, \$4,025 to \$7,025.
John McDermott, personal, \$2,040 to \$5,040.
Linebaugh estate, money, etc., assessed at \$25,000.
Nancy J. McMillen, money, etc., assessed at \$4,000.
Henry Weber, personal, \$15,000 to \$20,000.

Changes reported for Union township are:
C. G. Swinford, 30 acres, \$550 to \$390.
Rebecca Hewitt, 40 acres, \$700 to \$350.
J. L. Neal, 40 acres, \$700 to \$500.
C. G. McMillen, 76 acres, \$950 to \$1,100.

Burlington section house, Pickering assessed at \$250.
Changes reported in Jefferson township are:
A. M. Schaffer, 63 acres, \$930 to \$1,400.
John Holtman, 80 acres, \$1,600 to \$1,750.

John Holtman, 5 acres, \$100 to \$200.
C. N. Cohnstock, 73 acres, \$1,460 to \$1,600.
B. J. Jermain, 77 acres, \$1,540 to \$1,700.
B. J. Jermain, 75 acres, \$1,120 to \$1,650.

All country real estate assessments in Jefferson township were raised by 5 per cent over the valuations reported by the township assessor.

Quite a few "kicks" on assessments are being received, which is the case each year when the equalization board meets.

ARE PICKING CITY,
SCHOOL OFFICIALSJOINT ELECTION BRINGS OUT A
SMALL VOTE TODAY.12 MUNICIPAL RACERS
8 BEING FOR COUNCILThree Present Aldermen "Running,"
While 4 Seek Collectorship—School
Board Members Unopposed.

The annual city and school elections are being held in Maryville today to select four aldermen—one from each ward—a city collector and two members of the school board, in addition to voting on a county proposition for a new county school superintendent. Despite a rather dreary, rainy day, considerable interest is being manifested, at least by the sixteen candidates for official berths. They are also enthusiastic some of the voters in turn.

In every ward the vote was light this morning, but towards noon was beginning to pick up considerably, while from 1 o'clock on until 4 o'clock voting continued at a rather mild gait, and with no candidate seemingly having the matter clinched for an office.

4 Would Be Collector.

The polling places today are the same as usual. The polls will be open until 6 o'clock tonight.

One place which is bringing out quite a fight for possession is that of city collectorship, there being four candidates. They are Elmer W. (Red) Barrock, Vernon E. Dickson, O. P. Wade and W. A. Townsend. Two of them appeared early this afternoon to be running about "neck and neck" for the place.

The place must be filled at this time on account of the death, last December, of Samuel Seelman, who was elected a year ago for two years. Mrs. Seelman was then appointed collector until the election this spring.

Three Councilmen Try Again.

Two of the sixteen city or school candidates, however, awakened this morning without worry or anxiety as to how the day would go for them, for they are unopposed for office. They are Dr. Jesse Miller and L. C. Cook, for re-election on the board of education. Another who appears to be "running" mightily good in Maryville, although it cannot be definitely determined how it is elsewhere in Nodaway county is Bert Cooper, for county school superintendent. He has been holding down the job since January 1 by appointment. Opposing him is John Davis of Arkoe.

Three of the four councilmen whose terms expire this month are in the race for re-election today. They are Mose Hahn from the first ward, with Ed F. Hamlin opposing him; J. D. Ford from the second ward, with E. M. Dragoo opposing; Louis Gram from the fourth ward, with D. E. McDonald opposing.

John Gray Not a Candidate.

John A. Gray, councilman from the third ward, and president of the council, is not a candidate for re-election. But there are two candidates for alderman from that ward. They are M. A. Peery and Martin Borrsch. So that each ward is furnishing two candidates for election. The retirement of Councilman Gray will necessitate the election of a council president.

Each candidate is required to furnish his own election tickets in today's election, so that with the exception of the employment of election officials the city is at no expense. The election officials named at last week's council meeting are:

First—Gabe Allen, James Croy, John F. Gray and Homer Strong.

Second—Fred French, James Frank, O. L. Garrett and Henry Wright.

Third—A. E. Bell, R. A. Strawbridge, Roy Curfman and J. E. Bailey.

Fourth—Fred Smith, William Helpel, William Armstrong and Nicholas Sturm.

WESTERGAARD IS EASY FOR STECHER

Des Moines Man Is Toy In
Dodge Wrestler's Hands.

Lincoln, April 6.—Jess Westergaard proved to be a toy in the hands of Joe Stecher in the wrestling bout here and the Dodge phenom easily won in straight falls. The first fall came in fourteen minutes and the second in five minutes.

The Des Moines Dane never had a chance. After tussling about on their feet for ten minutes, Stecher heaved Westergaard to the mat and immediately clapped his deadly scissors on him. Westergaard succeeded in breaking the first scissors, but the second one slipped on almost instantly afterward was too powerful, and when Joe applied an armhold the Dane rolled over on his back.

Stecher took the initiative at the start of the second tussle, pulled the Dane to the mat and once more clamped on the vicious scissors. An armhold applied a minute afterward did the work and Westergaard's shoulders were again pinned to the mat.

Westergaard was a plaything in the hands of the Nebraska lad, who lost no time in ending the match. Jess could do absolutely nothing. Stecher's victory proves he is one of the best, if not the best, in the wrestling game.

A crowd of 1,500 saw the match. Of this number, 400 were from Omaha coming down on the special train promoted by Dan Gaines, and 500 were from Dodge county Stecher's home.

Pat Connolly challenged Stecher at the ringside and the deaf was accepted.

ZEPELI NOT SATISFIED

Says That His Air Craft Is Poorly Handled.

Romanshorn, Switzerland, April 6.—Count Zeppelin is not satisfied with the manner in which his airships are being handled. He called together recently his engineers and the captains of the dirigibles now at the Zeppelin works at Friedrichshafen and criticised them on several scores.

The count said that the full power of the Zeppelins had not been employed and that longer raids than any made heretofore were possible. He also said that there was too much of a disposition to await favorable weather conditions. He believed that an attack upon London had been delayed unnecessarily. The count also is understood to have criticised his captains for retreating from hostile airmen.

LEFT ESTATE TO WIDOW.

Late Skidmore Resident Could Not Provide for Children, Says.

In the will of Aaron C. Linville, who died at his home at Skidmore, March 6, the provisions of which were announced today in probate court, the entire Linville estate is left to the wife, Mrs. Lizzie Linville. None of the seven children received anything. The reason for this, as explained in the will, is that the estate is small and not more than enough to keep the widow from want.

Probate Judge W. H. Conn today appointed her executrix of the estate, as requested in the will.

"MILK SHAKE" IN A RUNAWAY

Ditto Bros' Dairy Delivery Wagon Wrecked When Team Bolts.

Bottles of cream, cans of milk and the various parts of the dairy wagon were thoroughly mixed in a general smash up of the Ditto Bros' dairy delivery this morning when the horses became frightened and ran away.

The team was being driven south on Mulberry street, near Sixth, when the horses bolted. The wagon was upset and the contents distributed over the street. The horses, with the running gear of the wagon attached, ran several blocks before they were caught. The wagon bed and top was broken to pieces. The driver was uninjured.

A Simple Cure.

"I am willing to risk my reputation as a public man," wrote Edward Hine to the Liverpool Mercury, "if the worst case of smallpox cannot be cured in three days simply by the use of cream tartar. One ounce of cream tartar dissolved in one pint of boiling water, to be drunk when cold, at short intervals. It can be taken at any time, and can be taken as a preventative as well as a curative. It is known to have cured a hundred thousand cases without a failure. I have myself restored hundreds by this means. It never leaves a mark, never causes blindness, and prevents tedious lingering."

TEETOTALISM IN KING'S HOUSEHOLDS

British Monarch Commands Prohibition in Royal Palaces.

FIND FRAGMENTS OF FLAGS

Austrians Tear Them Into Strips and Hide Them in Clothing.

Petrograd, April 6.—A remarkable feature of the surrender of the Galician fortress of Przemyśl was the fact that not a single Austrian flag was captured, says the Russky Slavo. The secret of their disappearance was discovered, this newspaper says, further, through the confession of Slav war prisoners, who arrived at Kiev. They said that the night before the surrender all the flags were torn into strips. These strips were numbered and distributed among individuals, who hid them in the linings of their coats and caps. They were required to take an oath to restore them upon their release from captivity, so that the flags might be reconstructed, thus giving the regiments the right to a further corporate existence.

A search of the prisoners revealed many such fragments of such flags. In the handle of a bag belonging to General Thomaschi a flag was found intact.

Military Activity in Italy.

Chiasso, Switzerland, April 6.—The assembling of Italian troops on the Austrian frontier is continuing with the greatest activity. All houses of peasants in the districts bordering the frontier affected have been occupied by soldiers. This information reaches Chiasso from Italian sources. It is learned from the same sources that still more important military activity is under way. Information on this point is refused transmission by the Italian censors.

Calles Plays Good Samaritan.

Douglas, Ariz., April 6.—General P. Elias Calles, Carranza commander at Agua Prieta, released Dr. Lopez, a Villa surgeon he captured last week, and sent him with an escort and some medical supplies to the Villa lines commanded by General Trujillo at San Jose, Sonora. General Calles had heard that men in the Villa camp were wounded and without medical attention.

Prinz Eitel Still at Newport News.

Newport News, Va., April 6.—The German auxiliary cruiser Prinz Eitel Friedrich is still at its wharf, with no outward evidence whether it would move to sea or intern.

REPARATION ASKED FOR SINKING FRYE

Washington, April 6.—The American note to Germany on the sinking of the American sailing ship William P. Frye by the German auxiliary cruiser Prinz Eitel Friedrich was made public here. It is very brief. It is confined principally to a recital of the legal aspects of the sinking of the Frye and in polite and diplomatic language suggests that Germany make "reparation."

BRITISH CRUISERS COALED FROM N. Y.

New York, April 6.—Dudley Field Malone, collector of the port, charged that British cruisers patrolling the waters along the coast of the United States had been violating the neutrality law by coaling and taking on supplies from vessels putting out from the port of New York.

DISREGARDS NATIONS' LAWS.

Washington Government Protects Against Action of Allies to Shut Off Trade With Germany—Legal Phases of Case Are Reviewed.

WAR SUMMARY

While the furious struggle for the Carpathian passes, in which the Russians appear to be making steady progress, is the dominating feature in the great European struggle, the situation in Italy is attracting much attention.

The concentration of troops, it is said, is so complete that it includes full supplies of ammunition and hospitals and airships.

In the Carpathian contest the Russians are fighting on the Hungarian side of both the Dukla and Luskow passes. The latest Russian official statement announces the capture of Cien, which is about fifteen miles east of Luskow and is an important railway station.

The Russians also claim a success to the north of Czernowitz. Bukovina, Little fighting of importance has taken place in the west. The French claim to have captured three successive lines of trenches in the Forest D'Ally, south of St. Mihiel, and to have gained a footing in a portion of the enemy's works northeast of Regneville. The Germans announce that they repulsed French attacks in the Woivre and Argonne regions.

Washington, April 6.—The United States government made public its note to Great Britain announcing that "it could not admit the right of the allies or their claims for justification in placing an embargo on all commercial intercourse between Germany and neutral countries."

"To admit it," says the communication, "would be to assume an attitude of unneutrality toward the present enemies of Great Britain, which would obviously be inconsistent with the solemn obligations of this government in the present circumstances and for Great Britain to make such a claim would be for it to abandon and set at naught the principles for which it has consistently and earnestly contended in other times and circumstances."

OKUMA DEFENDS DEMANDS

Declares Uneasiness in America Due to "German Misrepresentation."

Tokyo, April 6.—Count Okuma, the premier, said in an interview in regard to affairs in China:

"Our negotiations at Peking are progressing favorably towards an early and satisfactory conclusion. It is not true that the Chinese government has endeavored to delay negotiations unduly, but false information spread broadcast by German interests has given the agitators in China their opportunity."

"Japan's proposals are in complete accordance with the Anglo-Japan alliance as well as treaties and engagements with other countries guaranteeing equal opportunity in China and the integrity of that country. The criticisms and uneasiness displayed in the United States and Great Britain are caused by false information."

EXCITEMENT IN GENOA

Sinking of Italian Steamer by German Submarine Arouses Ire.

Genoa, Italy, April 6.—A German submarine has sunk the Italian steamer Luigi Parodi, which left Baltimore, Jan. 22, with a cargo of coal for Genoa, according to word received here. The report has caused a profound impression here, and there are many expressions of resentment.

Great excitement prevails, and the authorities have taken strong measures to protect the German colony and German shops from the possible reprisals. Nothing is known as to the fate of the crew of the Luigi Parodi, which was made up entirely of Genoese.

Fifteen Men Entombed in Mine.

Greenville, Ill., April 6.—One man was killed and sixteen are missing as the result of an explosion in the mine of the Shoal Creek Coal company, near here. Four hundred men were at work in the mine when the explosion occurred. All are known to have escaped except seventeen. Two men were taken out unconscious.

Slight Earth Shocks in Italy.

Rome, April 6.—A slight earthquake was felt here. The quake lasted four seconds. The alarm of the people here quickly subsided as no damage was done. Telegrams from Tivoli, Castelmadama and San Polo record the same disturbance, but no casualties.

Germans Put Pinchot Out of Belgium.

The Hague, April 6.—Gifford Pinchot, ex-chief forester of the United States, who, it is understood, has been acting as special agent for the state department at Washington in the European war zone, has been expelled from Belgium by the German authorities.

DECIDE PLAN FOR HOG RECORD HOME

STANDARD POLAND-CHINA ASSOCIATION ASKS FOR BIDS.

WORK TO BEGIN MAY 1, BE READY BY AUGUST

James H. Woodburn to Supervise Construction of Building on East Fifth—To Be Fireproof.

Plans and specifications for the proposed new one-story brick home of the Standard Poland-China Record association, to be built next to the post office, on East Fifth street, were received and formally adopted by the association building committee at a meeting in the offices of the Farmers Trust company yesterday afternoon. The committee consists of W. O. Garrett, chairman; Ray Davis, secretary; C. D. Bellows, W. C. Pierce and F. P. Robinson, all of Maryville.

Following the acceptance of the plans, which were drawn and submitted by James Schack, architect, of Seattle, Wash., a brother-in-law to C. D. Bellows, the committee issued a call for sealed bids for constructing the new home. The bids are to be submitted to Ray Davis, secretary, at the offices of the association, Third and Market streets, not later than April 20, when they will be opened and examined by the building committee.

To Be Ready by August 1. If any of the submitted bids are approved, the contract will be then and there awarded, so that actual work on the building, or at least excavating for the basement, may begin not later than May 1. The time set for completing the building, ready for occupancy, is August 1. This will give three months time in which to construct the building.

Select Building Supervisor. James H. Woodburn, a local carpenter, was yesterday appointed as superintendent of building and construction by the building committee. He will begin work as soon as the actual construction begins. It will be his purpose to see that all plans and specifications are carried out to the letter by the constructors and that first class material is used throughout.

It will be the purpose of the association committee to urge the use of home labor as much as possible, although this cannot be governed by it entirely.

The frame residence and barn now on the building site is to be removed within the next week or ten days. The tract on which the home is to be located was purchased last month from James Saunders for \$3,300. It has a frontage of 66-feet on East Fifth street and is 135 feet deep.

The building will be erected on rather artistic designs, making it a credit to Maryville and in keeping with the federal building, adjoining to the west. The brick to be used is to be a pressed reddish-gray variety from Coffeyville, Kan., with stone cornering and also beneath windows and above doors.

Will Be Fireproof.

The roof will be of asbestos shingles, of a fireproof composition and resembling slate roofing, only they will be painted red. A cement walk will lead from the Fifth street sidewalk twenty-five feet back to the main doorway of the home.

The building is to set back twenty-five feet from Fifth street, four feet to the east of the government boundary line and sixteen feet west of the eastern boundary, and eighty feet from the alley to the north, so that an addition can be provided for at any time such improvement may warrant it.

By placing the building away from the front, rear and sides it will serve two purposes—to give plenty of light and to safeguard the home against danger of fire. To this latter end everything is arranged in the plans for making fire from without almost impossible, while safeguards in this way

also will be provided in the interior.

Interior Arrangements.

Passing through a large, artistically designed door, the visitor to the association home will enter the vestibule 9 by 12 feet in dimensions. From there he may either pass through the main working room and clerical department or to the private office of the secretary, which likewise will be the directors' room. The working room will be 29 by 30 feet in dimensions, while the directors' room will be 14 by 22 feet in dimensions.

One thing the visitor also will notice from the vestibule, if plans are carried out is a large counter and gate connecting, which will separate the entrance hall from the clerical department, and over which all business will be done.

To Be Well Equipped.

The rooms will be well equipped with all furnishings needed in the transaction of the association business, and likewise to give prestige to the association and the air of prosperity and plenty.

On the main floor, to the rear, there also will be a large vault 14 by 22 feet in dimensions and with a balcony entirely around it. The entire lower floor will be 14 feet from the ceiling. The vault is expected to cost in the neighborhood of \$1,400, and will be built large enough to accommodate the association for years to come. There also will be two toilets and a clothes closet.

The basement will be only large enough to contain the hot air furnace and storage rooms for fuel, kindling and waste. It will be well lighted, however, as are also the main rooms. As proof, the plans call for three large windows on the east side and also three large windows on the south side of the main working room.

PARENT-TEACHERS MEET.

Program Will Be Followed by a Get-Together Session.

The April meeting of the Parent-Teachers' association will be held tonight in the high school auditorium, beginning at 8 o'clock.

The feature of the program will be a talk by Miss Beulah Brunner of the Normal faculty. Prof. E. R. Utter, principal of the high school, will speak on the subject of "Clean-Up Day," and music will be given by the high school orchestra and by the pupils from the seventh and eighth grades.

A social hour, for the purpose of all becoming better acquainted, will be held after the program. This gathering will be in the main hall and music will be given during the hour by the orchestra.

The year previous it sold for 50 cents.

CLEAN-UP BOSSES

FOUR WOMEN NAMED WARD SUPERVISORS BY MAYOR.

WILL HAVE ASSISTANTS

Each Captain May Appoint Lieutenant for Each Block—Meet Soon to Plan for Campaign, April 20.

One woman from each of the four wards of Maryville was appointed this morning by Mayor U. S. Wright, as ward captain in the city "clean-up, paint-up" campaign, to culminate April 20. They will have charge of the clean-up in their respective ward, and may appoint an assistant from each block in her district. The ward captains announced are:

First ward—Miss Dorothy Pierce. Second ward—Mrs. W. C. Van Cleave. Third ward—Miss Jessie Parcher. Fourth ward—Mrs. William J. Montgomery.

The selection of all but Miss Pierce was really determined upon sometime ago by Mayor Wright, but on account of Miss Pierce being out of town until last night, it could not be known whether she would accept the position as ward captain.

Decide Campaign Plans Soon.

A joint meeting of the general clean-up committee and of the ward captains will be held at the Commercial Club rooms within a few days, perhaps, this week, to map out definite details for the clean-up. They also will decide on a plan of procedure in order to best insure a thorough cleaning of the city.

A general discussion relative to the clean-up, gardening of vacant lots and the school contest for clean-up prizes also will follow at the meeting. The general committee consists of Mayor U. S. Wright, John J. Gray, president of the city council, J. H. Sewell, Miss Jessie Parcher, Prof. E. R. Utter and W. R. Jackson.

Considerable interest among the school children of the city is being manifested over the clean-up contest and many boys and girls are entering the Junior "Clean-up, paint-up" club, it is announced.

BUT 1 VOTE AGAINST LIGHTS

Graham Electric Franchise Proposition Carries—To Be Installed by July 1.

A practically unanimous vote at Graham today carried the proposition to grant a franchise to the Mound City Electric Light company to install an electric light and power system in the town.

At noon, with virtually the entire vote of the town cast, only one dissenting vote was entered.

The contract, as previously made with the Mound City company, pending the granting of the town franchise at today's election, specifies that the service be installed and ready for use July 1. Arc lights are to be placed at each street intersection, sixteen being required, and a 24-hour service will be given. Nearly every resident owner in the town has contracted for a house service, and the wiring will be done as soon as the town system is completed.

CHANGE ASSESSMENTS MUCH

Equalization Board Raises Atchison Real Estate Valuation 15 Per Cent—Examine Union and Jefferson.

The county court, meeting as a board of equalization for the first three days of this week, for the annual consideration of real estate and personal property valuations, is making many changes this year. Only Atchison, Jefferson and Union townships have so far been examined, but each will be considered before the board dissolves. The real estate valuations reported for 1914 by the township assessor for Atchison township were raised 15 per cent by the board today, excepting for Clearmont, which was left the same. Even with this 15 per cent raise, it is said the valuations for 1915 taxes are not so high as they were a year ago. Changes reported for Atchison township are:

John V. Smith, 160 acres, from \$3,000 to \$2,500. L. H. McCommon, personal, \$4,025 to \$7,025. John McDermott, personal, \$2,040 to \$5,040.

Linebaugh estate, money, etc., assessed at \$25,000. Nancy J. McMillen, money, etc., assessed at \$4,000. Henry Weber, personal, \$15,000 to \$20,000.

Changes reported for Union township are:

C. G. Swinford, 30 acres, \$550 to \$390. Rebecca Hewitt, 40 acres, \$700 to \$350. J. L. Neal, 40 acres, \$700 to \$500.

C. G. McMillen, 76 acres, \$950 to \$1,100. Burlington section house, Pickering assessed at \$250.

Changes reported in Jefferson township are:

A. M. Schaffer, 63 acres, \$930 to \$1,400. John Holtman, 80 acres, \$1,600 to \$1,750. John Holtman, 5 acres, \$100 to \$200.

C. N. Cohnstock, 73 acres, \$1,460 to \$1,600. B. J. Jermain, 77 acres, \$1,540 to \$1,700.

B. J. Jermain, 75 acres, \$1,120 to \$1,650.

All country real estate assessments in Jefferson township were raised by 5 per cent over the valuations reported by the township assessor.

Quite a few "kicks" on assessments are being received, which is the case each year when the equalization board meets.

NO WORD FROM GRAND JURY

Inquisition Body Still Examining Witnesses from Over County—May Report Tonight.

Although the grand jury began securing evidence yesterday afternoon on alleged state law violations in Nodaway county, it had not report to make to the circuit court this morning. It probably will not have before tonight or tomorrow morning, it is said. A number of witnesses from Maryville and points over the county are being examined, however, and the submission of either some "true" or "untrue" bills is expected soon.

Most of the inquisition said to have been made so far is relative to alleged gambling and liquor violations. Eight witnesses of and near Conception Junction were examined yesterday, while Miss Roxy Young of Guilford was summoned to appear before the jury today on an alleged state law violation.

A large number of residents of and in the vicinity of Burlington Junction are before the grand jury today relative to alleged gambling there. Nine arrests on gaming charges recently were made in that part of the county.

The Conception witnesses subpoenaed for yesterday were Thomas Archer, Leo King, Orla Wilcox, J. N. McDonald, John Klipping, Albert Caddell, Joseph Caddell and James Welsh.

ARE PICKING CITY, SCHOOL OFFICIALS

JOINT ELECTION BRINGS OUT A SMALL VOTE TODAY.

12 MUNICIPAL RACERS 8 BEING FOR COUNCIL

Three Present Aldermen "Running," While 4 Seek Collectorship—School Board Members Unopposed.

The annual city and school elections are being held in Maryville today to select four aldermen—one from each ward—a city collector and two members of the school board, in addition to voting on a county proposition for a new county school superintendent. Despite a rather dreary, rainy day, considerable interest is being manifested, at least by the sixteen candidates for official berths. They are also enthusiastic some of the voters in turn.

In every ward the vote was light this morning, but towards noon was beginning to pick up considerably, while from 1 o'clock on until 4 o'clock voting continued at a rather mild gait, and with no candidate seemingly having the matter cinched for an office.

4 Would Be Collector.

The polling places today are the same as usual. The polls will be open until 6 o'clock tonight.

One place which is bringing out quite a fight for possession is that of city collectorship, there being four candidates. They are Elmer W. (Red) Barrock, Vernon E. Dickson, O. P. Wade and W. A. Townsend. Two of them appeared early this afternoon to be running about "neck and neck" for the place.

The place must be filled at this time on account of the death, last December, of Samuel Selecman, who was elected a year ago for two years. Mrs. Selecman was then appointed collector until the election this spring.

Three Councilmen Try Again.

Two of the sixteen city or school candidates, however, awakened this morning without worry or anxiety as to how the day would go for them, for they are unopposed for office. They are Dr. Jesse Miller and L. C. Cook, for re-election on the board of education.

Another who appears to be "running" mightily good in Maryville, although it cannot be definitely determined how it is elsewhere in Nodaway county is Bert Cooper, for county school superintendent. He has been holding down the job since January 1 by appointment. Opposing him is John Davis of Arkoe.

Three of the four councilmen whose terms expire this month are in the race for re-election today. They are Mose Hahn from the first ward, with Ed F. Hamlin opposing him; J. D. Ford from the second ward, with E. M. Dragoos opposing; Louis Gram from the fourth ward, with D. E. McDonald opposing.

John Gray Not a Candidate.

John A. Gray, councilman from the third ward, and president of the council, is not a candidate for re-election. But there are two candidates for alderman from that ward. They are M. A. Peery and Martin Borrusch. So that each ward is furnishing two candidates for election. The retirement of Councilman Gray will necessitate the election of a council president.

Each candidate is required to furnish his own election tickets in today's election, so that with the exception of the employment of election officials the city is at no expense. The election officials named at last week's council meeting are:

First—Gabe Allen, James Croy, John F. Gray and Homer Strong. Second—Fred French, James Frank, O. L. Garrett and Henry Wright. Third—A. E. Bell, R. A. Strawbridge, Roy Curfman and J. E. Bailey. Fourth—Fred Smith, William Helleley, William Armstrong and Nicholas Sturm.

LEFT ESTATE TO WIDOW.

Late Skidmore Resident Could Not
Provide for Children, Says.

In the will of Aaron C. Linville, who died at his home at Skidmore, March 6, the provisions of which were announced today in probate court, the entire Linville estate is left to the wife, Mrs. Lizzie Linville. None of the seven children received anything. The reason for this, as explained in the will, is that the estate is small and not more than enough to keep the widow from want.

Probate Judge W. H. Conn today appointed her executrix of the estate, as requested in the will.

WESTERGAARD IS EASY FOR STECHER

Des Moines Man Is Toy In
Dodge Wrestler's Hands.

Lincoln, April 6.—Jess Westergaard proved to be a toy in the hands of Joe Stecher in the wrestling bout here and the Dodge phenom easily won in straight falls. The first fall came in fourteen minutes and the second in five minutes.

The Des Moines Dane never had a chance. After tussling about on their feet for ten minutes, Stecher heaved Westergaard to the mat and immediately clamped his deadly scissors on him. Westergaard succeeded in breaking the first scissors, but the second one slipped on almost instantly afterward was too powerful, and when Joe applied an armhold the Dane rolled over on his back.

Stecher took the initiative at the start of the second tussle, pulled the Dane to the mat and once more clamped on the vicious scissors. An armhold applied a minute afterward did the work and Westergaard's shoulders were again pinned to the mat.

Westergaard was a plaything in the hands of the Nebraska lad, who lost no time in ending the match. Jess could do absolutely nothing. Stecher's victory proves he is one of the best, if not the best, in the wrestling game.

A crowd of 1,500 saw the match. Of this number, 400 were from Omaha coming down on the special train promoted by Dan Gaines, and 500 were from Dodge county Stecher's home.

Pat Connolly challenged Stecher at the ringside and the deaf was accepted.

ZEPELLE NOT SATISFIED

Says That His Air Craft Is Poorly
Handled.

Romanshorn, Switzerland, April 6.—Count Zeppelin is not satisfied with the manner in which his airships are being handled. He called together recently his engineers and the captains of the dirigibles now at the Zeppelin works at Friedrichshafen and criticised them on several scores.

The count said that the full power of the Zeppelins had not been employed and that longer raids than any made heretofore were possible. He also said that there was too much of a disposition to await favorable weather conditions. He believed that an attack upon London had been delayed unnecessarily. The count also is understood to have criticised his captains for retreating from hostile armies.

The slaughter of 600 fine beef cattle exposed to or afflicted with the foot and mouth disease is shown in a photograph received today by Harvey L. Haines, from a brother in Kansas, who lives near the scene of the slaughter.

The picture makes one think of Europe, for rolled down in a ditch, which will constitute their grave, are shown the 600 cattle, while on the brink stands a man, shooting them down one by one. After being shot, lime is heaped on the carcasses and the whole number buried where they fell.

TEETOTALISM IN KING'S HOUSEHOLDS

British Monarch Commands Prohibition in Royal Palaces.

London, April 6.—Teetotalism will be enforced in all the king's households, beginning today. An official announcement just issued says: "By the king's command, no wines or spirits will be consumed in any of his majesty's houses after today."

FIND FRAGMENTS OF FLAGS

Austrians Tear Them Into Strips and Hide Them in Clothing.

Petrograd, April 6.—A remarkable feature of the surrender of the Galician fortress of Przemyśl was the fact that not a single Austrian flag was captured, says the Russky Slavo. The secret of their disappearance was discovered, this newspaper says, further, through the confession of Slav war prisoners, who arrived at Kiev. They said that the night before the surrender all the flags were torn into strips. These strips were numbered and distributed among individuals, who hid them in the linings of their coats and caps. They were required to take an oath to restore them upon their release from captivity, so that the flags might be reconstructed, thus giving the regiments the right to a further corporate existence.

A search of the prisoners revealed many such fragments of such flags. In the handle of a bag belonging to General Thomaschi a flag was found intact.

Military Activity in Italy.

Chiasso, Switzerland, April 6.—The assembling of Italian troops on the Austrian frontier is continuing with the greatest activity. All houses of peasants in the districts bordering the confines affected have been occupied by soldiers. This information reaches Chiasso from Italian sources. It is learned from the same sources that still more important military activity is under way. Information on this point is refused transmission by the Italian censors.

Calles Plays Good Samaritan.

Douglas, Ariz., April 6.—General P. Elias Calles, Carranza commander at Agua Prieta, released Dr. T. Lopez, a Villa surgeon he captured last week, and sent him with an escort and some medical supplies to the Villa lines commanded by General Trujillo at San Jose, Sonora. General Calles had heard that men in the Villa camp were wounded and without medical attention.

Prinz Eitel Still at Newport News.

Newport News, Va., April 6.—The German auxiliary cruiser Prinz Eitel Friedrich is still at its wharf, with no outward evidence whether it would move to sea or intern.

REPARATION ASKED FOR SINKING FRYE

Washington, April 6.—The American note to Germany on the sinking of the American sailing ship William P. Frye by the German auxiliary cruiser Prinz Eitel Friedrich was made public here. It is very brief. It is confined principally to a recital of the legal aspects of the sinking of the Frye and in polite and diplomatic language suggests that Germany make "reparation."

BRITISH CRUISERS COALED FROM N. Y.

New York, April 6.—Dudley Field Malone, collector of the port, charged that British cruisers patrolling the waters along the coast of the United States had been violating the neutrality law by coaling and taking on supplies from vessels putting out from the port of New York.

Washington Government Protests Against Action of Allies to Shut Off Trade With Germany—Legal Phases of Case Are Reviewed.

WAR SUMMARY

While the furious struggle for the Carpathian passes, in which the Russians appear to be making steady progress, is the dominating feature in the great European struggle, the situation in Italy is attracting much attention.

The concentration of troops, it is said, is so complete that it includes full supplies of ammunition and hospitals and airships.

In the Carpathian contest the Russians are fighting on the Hungarian side of both the Dukla and Lupkow passes. The latest Russian official statement announces the capture of Cien, which is about fifteen miles east of Lupkow and is an important railway station.

The Russians also claim a success to the north of Czernowitz. Bukovina Little fighting of importance has taken place in the west. The French claim to have captured three successive lines of trenches in the Forest D'Ally, south of St. Mihiel, and to have gained a footing in a portion of the enemy's works northeast of Regneville. The Germans announce that they repulsed French attacks in the Woivre and Argonne regions.

Washington, April 6.—The United States government made public its note to Great Britain announcing that "it could not admit the right of the allies or their claims for justification in placing an embargo on all commercial intercourse between Germany and neutral countries."

"To admit it," says the communication, "would be to assume an attitude of unneutrality toward the present enemies of Great Britain, which would obviously be inconsistent with the solemn obligations of this government in the present circumstances and for Great Britain to make such a claim would be for it to abandon and set at naught the principles for which it has consistently and earnestly contended in other times and circumstances."

OKUMA DEFENDS DEMANDS

Declares Uneasiness in America Due to "German Misrepresentation."

Tokyo, April 6.—Count Okuma, the premier, said in an interview in regard to affairs in China:

"Our negotiations at Peking are progressing favorably towards an early and satisfactory conclusion. It is not true that the Chinese government has endeavored to delay negotiations unduly, but false information spread broadcast by German interests has given the agitators in China their opportunity."

"Japan's proposals are in complete accordance with the Anglo-Japan alliance as well as treaties and engagements with other countries guaranteeing equal opportunity in China and the integrity of that country. The criticisms and uneasiness displayed in the United States and Great Britain are caused by false information."

EXCITEMENT IN GENOA

Sinking of Italian Steamer by German Submarine Arouses Ire.

Genoa, Italy, April 6.—A German submarine has sunk the Italian steamer Luigi Parodi, which left Baltimore, Jan. 22, with a cargo of coal for Genoa, according to word received here. The report has caused a profound impression here, and there are many expressions of resentment.

Great excitement prevails, and the authorities have taken strong measures to protect the German colony and German shops from the possible reprisals. Nothing is known as to the fate of the crew of the Luigi Parodi, which was made up entirely of Genoese.

Fifteen Men Entombed in Mine.

Greenville, Ill., April 6.—One man was killed and sixteen are missing as the result of an explosion in the mine of the Shoal Creek Coal company, near here. Four hundred men were at work in the mine when the explosion occurred. All are known to have escaped except seventeen. Two men were taken out unconscious.

Slight Earth Shocks in Italy.

Rome, April 6.—A slight earthquake was felt here. The quake lasted four seconds. The alarm of the people here quickly subsided as no damage was done. Telegrams from Tivoli, Castelmadama and San Polo record the same disturbance, but no casualties.

Germans Put Pinchot Out of Belgium. The Hague, April 6.—Gifford Pinchot, ex-chief forester of the United States, who it is understood, has been acting as special agent for the state department at Washington in the European war zone, has been expelled from Belgium by the German authorities.
